

## Execution EtherCAT-Master Interface

### 1. EtherCAT Master with CANopen profile

#### Type designation: BM4-O-ECT-02-01-01

Part No.: 399907

Function: EtherCAT Master Interface with CANopen profile

Presuppositions: BM4-O-PLC-01-XX-02, DrivePLC

#### Information of nameplate:

#### Hardware history

The printed circuit board 3.0518.02.A04 is the first official version.

#### FPGA BACI software history

The FPGA BACI software 0020 is the first official version.

The FPGA BACI software 0022 is introduced with AT138\_07 from May 05, 2007.

- Function 'Distributed Clocks'

#### CPU software history

The CPU software 01.03 is the first official version.

The CPU software 01.06 is introduced with AT138\_07 from May 05, 2007.

- Function 'Distributed Clocks'

The CPU software 01.07 is introduced with AT285\_07 from September 21, 2007.

- Optimizing Boot up

#### Boot Loader history

The Boot Loader software 01.03 is the first official version.
